

## Detectable Beard Snood | PE1BM1282TB

---

### Product Description

---

The Detectable Non Woven Beard Snood benefits are two fold, not only does the product reduce foreign body contamination from stray facial hairs, but the

metal film strips make the product metal detectable, preventing the product itself becoming a foreign body contaminant.

### Detectable Beard Snood Advantages

---

- ✓ Detectable by in-line metal detection systems
- ✓ Highly visible colour for easy visual identification
- ✓ Significantly reduces foreign body facial hair contamination
- ✓ Integral foil strip reduces the risk of the beard snood causing foreign body contamination
- ✓ Manufactured from non-woven polypropylene with a foil strip
- ✓ Displays due diligence in the prevention of foreign body contamination

## Product and Packaging Information

<b>Product Code</b>	PE1BM1282TB	<b>Colour(s)</b>	Blue
<b>Pack Weight</b>	3.0kg	<b>Material</b>	Non-Woven Polypropylene
<b>Pack Size</b>	500	<b>Detectability</b>	Part Metal Detectable
<b>Dimensions</b>	Adjustable	<b>Commodity Code</b>	65050090

## Materials

Manufactured from 11gsm (+/- 5%) non woven polypropylene, featuring 55% Latex elastic covered by yarn nylon and a 6mm detectable foil strip.

These products are not designed to come in to direct contact with food and therefore do not come with any food contact approvals or certifications. They are to be used as personal protection to reduce the risk of hair contamination.

## Safety Certificates / Approvals

BRC Compliant      ISO 9001:2015      Made In Britain

## Metal Detectability

These beard snoods feature a 6mm aluminium based foil strip that when fully intact can give a detector reading equivalent to 5.0mm ferrous. The detectability of this product will vary based upon the metal detection systems being used and their calibration. Detectability performance will vary based on, but not limited to the following factors:

- Calibration Levels
- Product Type (E.g. Wet, Dry, Frozen, Liquid)
- Aperture Dimensions
- Orientation

For this reason BST recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be re-calibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.

The information provided in this product specification sheet is based on our experience and knowledge to date and we believe it to be true and reliable.
