

Non Detectable Glove Guard | GG*

Product Description

The Glove Guard features a patented safety breakaway that prevents the user from being pulled off balance if their gloves snag in a piece of equipment. This handy clip uses a ball and socket device that is designed to break away at a higher point. Use of the Glove Guard has proven to drastically reduce hand injuries and glove replacement costs. It is made from an engineered grade material that holds its memory, resists flex fatigue, is non-conductive and non-corrosive.

Features & Benefits

- ✓ Non-conductive
- ✓ Break-away center
- ✓ Keeps gloves & other items close at hand
- ✓ Lightweight & adaptable
- ✓ Premium plastic
- ✓ Secure attachment
- ✓ Metal detectable version available
