

BST P950 Ink Refill | BSTP950*

The P950 Ink Refill

The P950 refills are a high quality German stainless steel bodied ink cartridge with an estimated write out length of 6,000 metres according to EWIMA and a 1mm ball point nib. The P950 ink is suitable for cold, damp and greasy food production areas and are designed to perform at a temperature range of -20°C to +5°C. The P950 is ideal for use in freezer rooms & chilled processing areas. The pressurised ink cartridge means the P950 can write continuously upside down, where other pens would fail. It can write underwater, on greasy surfaces, in freezing conditions and even in space.

The P950 Ink Refill Advantages

- ✓ High quality German stainless steel bodied cartridge
- ✓ Write out length of 6,000 metres according to EWIMA
- ✓ Features lead free cartridge nib and detectable end plug
- ✓ Fits most other retractable detectable pens on the market
- ✓ Comply with DIN ISO 12757-1
- ✓ Comply with REACH regulation EX/1907/2006
