

5 EASY STEPS TO CORRECTLY WEAR YOUR HAIRNETS & BEARD SNOODS

Hold the Beard Snood with the closures east to west, holding the elastic in one hand and the body of the Beard Snood in the other. Locate the elastic to the back of the head and make sure the Beard Snood covers the nose.

Locate under the chin and ensure the elastic is over the ears. The Hairnet should not be put on first as the Beard Snood closures are covered by the Hairnet. This provides extra security and ensures the Beard Snood is kept in place.

Before donning the Hairnet, brush and tie the hair back. make sure it's not tied too low down, as the Hairnet elastic needs to lay flat against the neckline.

With the closure north to south hold the Hairnet open ready for donning. Wearing it this way pulls the meshes closer together. Locate across the forehead and pull the Hairnet over the crown, ensuring all hair in the nape of the neck is covered. Locate under the ears, to keep the Hairnet securely in place.

Check all hair is fully enclosed, that the double elastic headband is laying flat and is located under the ears. If necessary get a colleague to double check. Put on other PPE after the Hairnet has been donned. This ensures that any hair dislodged by adjusting, isn't taken into the workplace.
