

## Detectable Utility Guard | UGDB

### Product Description

The Utility Guard not only features a patented safety breakaway that prevents the user from being pulled off balance but they also feature a belt clip instead of a small clamp to attach to the user.

To use, simply slip the belt clip over your belt, waistband or pocket and attach your gloves, towel or earmuffs to the large clamp.

### Detectable Glove Guard® Advantages

- ✓ Detectable by in-line metal detection systems
- ✓ Highly visible colour for easy visual identifications
- ✓ Can be used as part of HACCP and BRC procedures
- ✓ FDA food grade material suitable for food contact applications
- ✓ Displays due diligence in the prevention of foreign body contamination

## Metal Detectability

---

The POM material of these utility guards are intended to be detected by metal detection systems. The detectability of this product will vary based upon the metal detection systems being used and their calibration. Detectability performance will vary based on, but not limited to the following factors:

- Calibration Levels
- Product Type (E.g. Wet, Dry, Frozen, Liquid)
- Aperture Dimensions
- Orientation

For this reason BST recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be re-calibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.

The information provided in this product specification sheet is based on our experience and knowledge to date and we believe it to be true and reliable. This information is intended as a guide for your use of our products, the use of which is entirely at your own discretion and risk. We, BS Teasdale & Son Ltd, cannot guarantee favourable results and assume no liability in connection with the use of our products. © 2023 BS Teasdale & Son Ltd.
