

Introducing the NEW BST Eco v2.0

DETECTAPEN™

The NEW BST Eco v2.0 DetectaPen boasts all the same properties as the original Eco but with an all new sleek design for ultimate writing comfort!

Featuring a one piece **metal detectable and x-ray visible** plastic body made from our specially formulated xdetect® Polypropylene compound. The beautifully simple design is comprised of only **two main components**, the pen body and the ink cartridge, both of which are dual detectable.

They boast all the same properties as other pens in the BST DetectaPen range, including FDA and EU food contact approvals, they are shatter resistant, lanyard compatible, incorporate silver ion antibacterial technology, and we are proud to say 'Made in Britain'.

New Sleek matt design

Available in blue bodies

Metal detectable and x-ray visible parts

Nickel & Brass nibs available

SteriTouch® is a registered trademark of Radical Materials Ltd

Introducing the NEW BST Trace-It

DETECTAPEN™

The BST Trace-It DetectaPen is the ideal affordable, retractable, detectable pen!

This brand new economical alternative to our premium retractable pens features a **metal detectable and x-ray visible** plastic body and insert which is made from our specially formulated xdetect® Polypropylene compound. With a blue body for visual identification and black and blue ink options, as well as clipped and looped models available, these pens are designed to be the **perfect addition** to your food production areas.

They boast the same properties as other pens in the BST range, including **FDA** and **EU** food contact approvals, made from strong, durable, chemical resistant and shatter resistant material, lanyard compatible, and we are proud to say 'Made in Britain'.
