

PPE Dispensers | MPDIS / SGDIS / DGDIS

Product Description

These heavy duty, hygienic wall dispensers are ideal for disposable PPE. They are made entirely of stainless steel AISI 304 with a wall thickness of 0.8mm. A 60° pitched roof prevents the accumulation

of dust and provides security. Suitable for single-use PPE items without a dispenser box. Single and double glove dispensers and multi purpose PPE dispensers are available.

Stainless Steel PPE Dispensers Advantages

- ✓ Detectable by in-line metal detection systems
- ✓ Heavy duty stainless steel 304 wall dispensers
- ✓ Feature a 60° pitched roof to prevent dust accumulating
- ✓ Ideal for single use PPE items
- ✓ Displays due diligence in the prevention of foreign body contamination

Metal Detectability

BST products manufactured from 304 grade stainless steel - we would recommend using 304 grade stainless steel test pieces to calibrate your equipment to detect stainless steel contaminants to your specification.

BST recommend that all our products be thoroughly tested on your metal detection system / x-ray inspection system by a trained and certified professional. Your equipment may need to be re-calibrated in order to reliably detect this product. Such a professional should be available by contacting the manufacturer of your metal detection system.

The information provided in this product specification sheet is based on our experience and knowledge to date and we believe it to be true and reliable. This information is intended as a guide for your use of our products, the use of which is entirely at your own discretion and risk. We, BS Teasdale & Son Ltd, cannot guarantee favourable results and assume no liability in connection with the use of our products. © 2023 BS Teasdale & Son Ltd.
